

**Fans Of
"The L Word" Honor
Actress, Jennifer Beals
by rescuing a draft horse
in her name!**

ALPHA-BETTE

What better way is there to say "We think the world of you" than saving a life in someone's honor?

Jennifer Beal's fans spread the word about the Sugarcreek Draft Horse Rescue, and decided to raise funds to help save the life of a draft horse that would have been otherwise sent to the slaughterhouse.

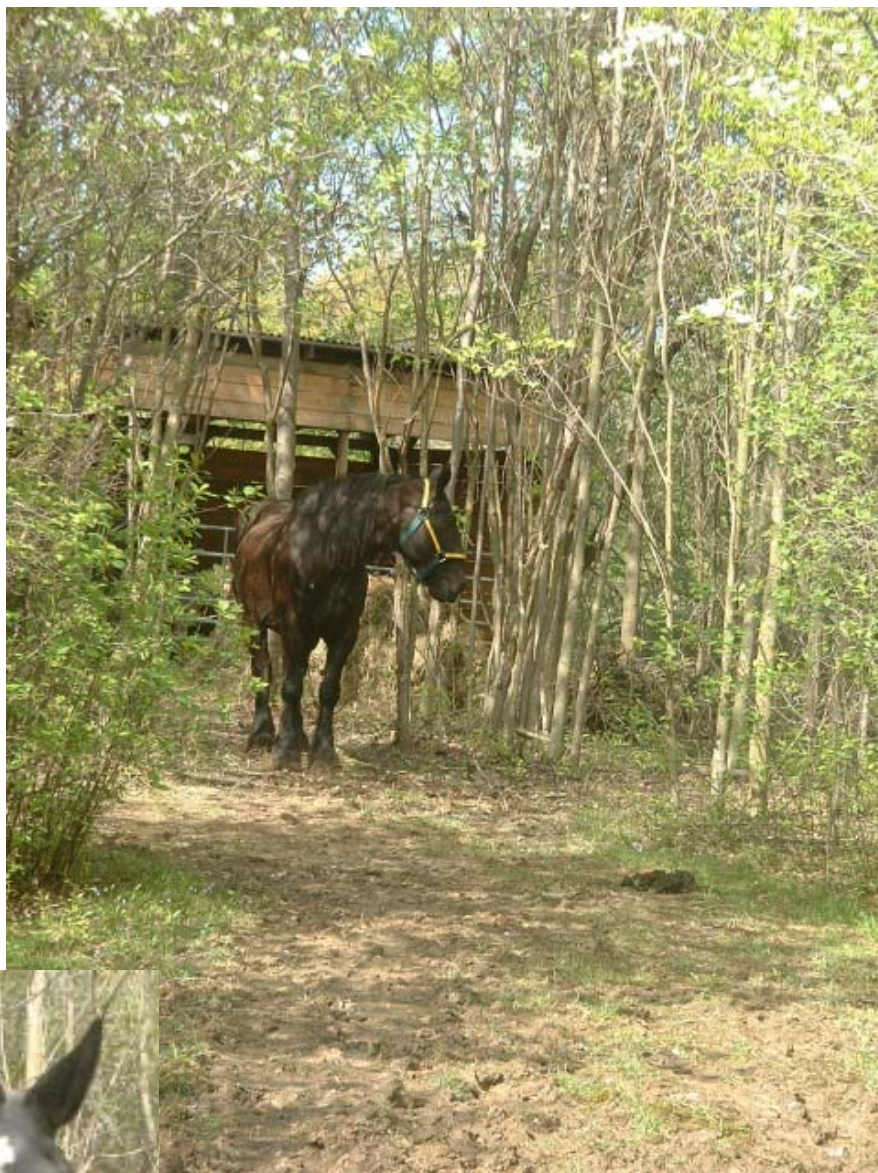

MEET ALPHA-BETTE!

Now named after the character on the show, Alpha-Bette is a stunning, gorgeous black Percheron mare. Though she apparently had her forelock and bridal-path "buzzed off", she still sports a flowing black mane half way down her neck.

(Right) Alpha-Bette casually rests among the trees at Happy Trails, her summer cottage in the background.

Many, many kind-hearted folks from around the world stepped up to the plate to make this rescue happen! Jennifer has fans everywhere, from Texas to Ohio to Nova Scotia to Australia and everywhere in between!

Her personality is incredible! She LOVES people, and wants to follow you around like a big puppy!

Alpha-Bette likes snacks, is very food motivated, likes to wipe her nose on your clean coat! She is kind and gentle and very, very sweet!

She is currently at the Equine Specialty Hospital, along with her friend Ruby and the Standardbred gelding, getting checked-out and getting a medical evaluation. She has a runny nose, and is currently on anti-biotics.

She eats TONS of hay, and has now been wormed!

Here Alpha-Bette thoroughly enjoys munching hay at one of the many round bales available to her. Her favorite pastime is itching her belly on the tree branches — they make awesome scratching posts! She does not care for the donkeys to be eating near her, however, and makes sure they know they are not to eat when she is eating. They have to go eat from a hay bale just out of the photo to the right.

We will keep providing updates and let everyone know of her recovery and progress — Alpha-Bette is truly one incredible and lucky mare!!!

Thanks SO very much to EVERYONE who made this rescue possible, and Alpha-Bette thanks you from the bottom of her giant hooves!!!!
