

Happy Trails Farm Animal Sanctuary Saddle Raffle Challenge!

It is definitely a "challenge" for Happy Trails to raise money for our many horse veterinary expenses!

- Three thin, young "geldings" came in on Mon., Jan. 11th. We discovered that they had not dropped due to malnutrition. It ends up they are actually stallions. Yay... As they begin to develop during recovery, they will need gelded. If they don't completely drop, surgery will cost even more.

- Buddy, a 19 year old Quarter horse, was accepted into our program on Friday, suffering from severe malnutrition. He had to visit OSU for an evaluation of a horrifically swollen sheath.

- Buckeye, a 5 year old Standardbred from the Newton Falls rescue, was fighting for his life after being rescued on Nov. 27th. After an extended stay at OSU and leg surgery, his is finally on the road to recovery.

- Currently there are over 30 horses in Happy Trails rescue and recovery program. All have suffered from severe neglect or abuse. All horses are vet checked, treated for any medical issues, have their hooves trimmed, their teeth floated, are dewormed, vaccinated, and any health problems are addressed. Due to the sheer number of horse abuse cases that we handle, our vet costs are *impressive*.

Our goal with this raffle is to raise \$3,000!
If 30 Happy Trails friends are able to sell 20 raffle chances at \$5 each, we can easily reach our goal!
Can you be please be one of our 30 friends?

Drawing To Be Held On Sunday, Mar. 28th!
Just in time to get you riding in style this spring!

Please print and share copies of this flier. Help your friends fill out the coupon, and you can send raffle donations to Happy Trails (Make sure we receive them by the drawing date of Mar. 28th.)
