

RESCUED ON MAY 9TH FROM SUGARCREEK STANDARDBREDS

NOT NAMED

The wonderful seven year old black Standardbred mare is a candidate for eye surgery. Having cataracts in both eyes, she is candidate for eye surgery!

NOT NAMED

Sweet, suffering from malnutrition, and weak, this gentle Standardbred gelding would not have been able to stand for the entire 4-5 day trip to the Mexican slaughterhouse. Horses that go down in the trucks are often trampled, injured or even killed by their herd-mates.
