Sandy Smith is third-generation intuitive Psychic and Medium, using spiritual light to give clear, and accurate readings. She has made a lifetime commitment to helping people and animals, accomplishing this through her gifts of clairvoyance, clairaudience and clairsentience, and as a Psychic, Medium and Healer as well as a Spiritual Counselor. Sandy Smith's love for all of God's creatures enables her to work compassionately and lovingly with people and animals, and she conveys this love in all of her work, bringing healing to all of her clients.

Sandy has studied many different forms of Healing Work, Spirituality, Metaphysics, Mediumship and Shamanism, working with the Chakras, Animal Totems, Energy Work, Candle and Light Healing, Crystals and Stones. She incorporates all methods in her readings and healing to bring about the most thorough sessions. She works with people who are terminally ill, suicidal, sexually abused, and those who are going through a divorce. She also assists animals with their needs, including sick animals and those that are terminally ill. Sandy Smith loves to work with survivors on closure, helping all clients to move forward after the loss of a loved one, even if the death resulted from a horrific crime.

Sandy has worked with spirits that are earth-bound to help them transcend into the light. Many of these souls are of people who died tragically and are scared, lost or emotionally stuck, unable to let go of their existence on this plane.

"We are not here to judge others. We are here to give love, compassion and respect to one another, as we are all a product of the divine, or God's children, and we are to extend this to all of God's creatures."

DORIS STRAKKA

Animal Communicator

Learn what’s on your pet’s mind!

Doris Strakka, well-known animal communicator from the Kirtland area, has had the ability to mentally communicate with all types of animals since she was 2 years old.

She can often pinpoint sources of pain and changes in behavior. “I am intuitive, and sometimes the red flags go up if an animal has a health issue,” she said. “Of course, I do run into animals that I just plain talk with.”

Doris Strakka can help you gain a greater understanding of your beloved animal friends.

Is there an animal companion in your life, whose presence you still feel? Or do you wonder if your pet who has crossed the Rainbow Bridge is really doing OK?

Doris can help you understand, through communicating with the Spirit of your late pet.

Bring a picture of your pet for Doris to connect. (We’re unable to allow pets to be brought to Happy Trails for the safety of the resident rescued animals.)

How does this work?

“It’s like a small movie playing in my head,” she said. “It’s very telepathic once they trust me, and they realize I can hear them.”

Do you want to know what your pet is thinking? Is your pet happy? Is there something your pet would like you to know?

Get the answers to these questions and more.

Doris has had clients from all over the country, including Tennessee, Florida, Arizona and California, and she has used her communication abilities to help animals in many ways.

“I think they all need an ear, and there are many wonderful people out there respecting that their animals are individuals,” she said.
