the elegant horse was created  
exclusively for Happy Trails  
Farm Animal Sanctuary.*

*It is now available  
through December 31, 2012,  
with proceeds from each  
sale benefitting the  
rescued animals  
at Happy Trails.*

STATUES • PINS • PENDANTS • ORNAMENTS

## STATUES

### Rescued Herd

This beautiful 10¼” wide x 7¾” high free-standing pewter statue is not only a unique Don Drumm creation, but also serves as a reminder of the multitude of rescued horses that find safety, comfort and peace through the horse rescue programs at Happy Trails.....\$156

### Healing Horse

Full of hope, this healing horse standing at 7¾” wide x 8½” high, is ready to give actual rescued horses a second chance at life through the proceeds of its sales. This detailed, polished pewter statue stands freely and elegantly as it anticipates only good things to come....\$104

*All pieces are imprinted with the Don Drumm signature stamp.*

**Sono Libero**, a small black pony, lived tied to a tree for about a year and a half along with his pony mare friend. During that time, his friend died of neglect. Sono Libero was attacked by a vicious dog and his eyelid was severely damaged. His owner did not provide him with veterinary care. During a visit from a humane officer, the dog again attacked, tearing open the pony's shoulder. This gentle soul recovered at Happy Trails. His owner was prosecuted for animal cruelty and found guilty in a court of law.

## PENDANTS ORNAMENTS KEY CHAINS

### Angel Watching Over

Ready to protect, this angel promises to watch over the horse in her care. 2” wide x 2¾” high, this horse and angel pendant will remind you that you are a true angel to the rescued horses by supporting their daily care through this purchase...\$25

### Standing Hopeful

Waiting patiently for someone to welcome him into their family, this gentle horse stands alone at the sanctuary with hope that someone will adopt him. Wear this rescued horse as a necklace, place him on your key chain, or hang it as an ornament....\$25

*Use these unique pendants as creatively as you wish! They make great pendants for necklaces, key chains, or tree ornaments. Necklace chains, key chains or ornament hangers not included.*

**Diamond** was being run through a meat auction as part of a draft horse hitch team. Her partner was purchased by a private individual, but due to a back right leg that was painfully swollen to three times its normal size, she was being bid on by only the meat buyers and was destined for a long and torturous trip to a Mexican slaughter house. She is now recovering at Happy Trails and has a bright future. She definitely has an angel watching over her.

# PINS

## Love You With All My Heart

Wearing his heart on his sleeve, or rather, on his left shoulder, this horse is all about spreading kindness, compassion and love for all animals. He loves the fact that rescued horses are being helped with the sales of his pin.....\$22

## A Wing And A Prayer

The angel protecting this horse knows that often animal rescue groups operate on a wing and a prayer. As you wear her proudly on your sweater or jacket, she will remind you that at Happy Trails we treat the body, mind and spirit...\$22

## Together We Stand

Each horse here represents the hundreds of horses that have been rescued through Happy Trails, and also the hundreds that are still to come. With your purchase of this pin, like the herd of horses, together we stand strong. Your purchase provides funds to help the next group of horses in need....\$22

Nearly 300 lbs. underweight, **Paninah** was suffering from starvation. She was so weak that she could not stand up by herself when she would lie down in her stall. A crew of rescue workers would stand her back up until she became stronger and could stand up on her own. She was rescued in the freezing rain, already hypothermic. Her caretaker was found guilty of animal abuse. Paninah has made a full recovery at Happy Trails. She loves everyone with all her heart.

## Spreading Kindness And Compassion For All Animals

**Happy Trails Farm Animal Sanctuary is a 501c3 non-profit organization that rescues and rehabilitates horses and other farm animals from abuse, neglect and abandonment situations.** Our intake criteria is that the animal is removed from the situation by a humane officer, sheriff's department or other law enforcement official. We also require that cruelty charges are filed against the owner or caretaker. We assist by providing information to help with the prosecution of the case and we testify in court.

Many county humane societies are set up to help smaller domestic animals such as dogs, cats, puppies and kittens. When they are faced with a neglect situation involving horses or other farm animals, these county agencies often do not have the appropriate facilities nor the knowledgeable staff to provide the animals with proper medical attention and to address their nutritional requirements and daily care needs.

**Over the past 12 years, over 3,000 animals have come through our sanctuary.**

Happy Trails is proud to provide our **Amish Horse Retirement Program**, offering the families of hard working buggy and plow horses an alternative to the slaughterhouse auction when their Standardbred or draft horse can no longer serve their family.

**Kachina** was only ten weeks old when we received a call from an Amish farmer. This adorable little mini horse was born crippled. Her spine had not fused all the way and her hooves had not completely formed, and she could not use her hind quarters to walk. Kachina had hoof extensions created for her at OSU (Ohio State University Veterinary Teaching Hospital) in Columbus. She can now walk and trot with ease, and is an ambassador for Happy Trails.

Happy Trails accepts these horses into this program, rehabilitates them, and places them in permanent retirement homes.

Horses and other farm animals are made available for adoption to kind and caring families after completing a rehabilitation program.

Some of the rescued horses may have limitations, and any horses that are not able to ride or work in some capacity are considered a 'Pasture Pal'. This category of horses can be adopted as a family pet or as a friend for another lonely horse, but due to health issues or old age, they cannot carry a rider or pull weight.

Some horses maybe be able to work or be ridden, but with limitations. This limit is the amount of weight they can carry (or pull) comfortably due to leg issues, past surgeries or arthritis.

**Regardless of their Pasture Pal status or limitations, even these horses who may not be able to provide a standard "service" to their human companions still have a lot of love to give and lessons to teach.**

The horse rescue program of Happy Trails has opened many eyes to abuse and neglect situations that might otherwise have gone un-noticed.

*Thank you for helping Happy Trails continue our work of rehabilitating horses and other farm animals suffering from abuse through your purchase of the creative, stylized horses in this Don Drumm collection!*

**Buckeye's** owner tried to euthanize him by herself by giving him an overdose of Penicillin with an IV injection. He looked like a walking skeleton. He was rescued, along with 10 other horses and several farm animals. His owner was guilty of animal abuse. After ankle surgery and spending over a year in recovery, Buckeye is now rideable and has been adopted by a loving family. His rather extensive and expensive recovery was made possible on a wing and a prayer.
